

Smoothing the Transition

THINKING BEYOND TRADITIONAL ESTATE PLANNING

A smooth transition of your family farm or ranch to the next generation requires preparation, communication, and planning. **Where are you in the process?**

What is your transition plan?

Where do you see your operation in 5, 10, or 20 years?

Do you have a plan to get there?

Has the plan been discussed? Is there agreement?

Each location will include

- Estate Planning Resources - *preparing to meet the professionals*
- Management Showdown - *an interactive discussion about differences in perspectives between generations*
- Issues in Legacy Planning - *going beyond the issues for a smooth transition, how to get started, what to do when things get rough*
